

ARTIOM DJUR.

BUSINESS DESIGNER
FULL-STACK DEVELOPER

I design and build digital products from business idea to interface and code. My work combines product thinking, emotional visual direction and full-stack development.

EXPERIENCE

Business Designer Current
Upwork - freelance
Business design, product direction, visual identity and responsive web product development for freelance clients.

EDUCATION

Cybersecurity program 2026 - Present
Technical University of Moldova (UTM), Chisinau
First-year student focused on cybersecurity foundations alongside practical full-stack product development.

RECOGNITION

3rd place in Artificial Intelligence 2024
Tekwill Junior Ambassadors
Built and trained a sign-language recognition model with another participant. The model translated gestures into written text for deaf and non-speaking users.

SELECTED PROJECTS

FLQ - business startup 2026 - Present
Founder, designer and developer
Self-built digital studio prototype for emotional online brand experiences. React, Vite, Tailwind CSS, Node.js, Express, MySQL and JWT.

MOVLY - sports discovery startup 2026
Product designer and full-stack developer
Detailed mobile-app prototype helping people find teams and nearby games. Built on a React, Vite, Node.js and Express foundation.

TECHNICAL STACK

Frontend	React 19, JavaScript / JSX, Vite 7, React Router 7, Axios, Tailwind CSS 4, CSS Modules, HTML5
